Stainless steel scrubber dryers

The Commander

Built to keep on going

so your business can too

'The Commander' is the Floormec flagship range of scrubber dryer machines. Engineered in the U.K. by Industrial Cleaning professionals, The Commander range are constructed using stainless steel, ensuring durability and easy maintenance. With its intelligent controller system and high-output battery setup, The Commander promotes the highest quality cleaning level and prolonged heavy-duty use.

CLEANS AND DRIES

3600m²
PER HOUR (WITH 32" BRUSH PLATE)

PERFECTLY ENGINEERED FOR YOUR BUSINESS

'The Commander' is available with either 32 or 26 inch cleaning paths, to suit application. Its component and build quality ensures minimal down-time and maintenance costs, making it perfect for heavy use in medium to large size premises.

With its high-capacity solution & recovery tanks and powerful 3-stage vacuum motor, The Commander ensures a powerful, yet manoeuvrable cleaning process with instant dry floors.

VERSATILE & MANOEUVRABLE

- Available in 32 or 26 inch brush plate sizes
- Automatic brush and water shut-off
- Highly manoeuvrable
- Emergency stop button
- Automatic brush pressure

FOOD PROCESSING & HOSPITALS

Its stainless steel construction ensures minimal bacteria is carried by the machine, making it the most appropriate scrubber dryer in its class for food processing facilities and hospitals.

MANUFACTURING PLANTS & WAREHOUSING

3-stage vacuum, long battery life and intelligent controller system ensures a powerful and durable machine, even in the most demanding environments.

RETAIL & SPORTS FACILITIES

Manoeuvrable and versatile, with its variable brush height and pressure control, means it is ideal for busy retail premises and sports facilities.

FEATURES

- Heavy-duty chassis and drive train
- Stainless steel construction
- Intelligent controller system
- Switches brushes and water off, when machine remains stationary
- Solid state electronics
- Heavy scrub for stubborn soiling
- Installation with full training, and
- ...includes starter kit

Simple to use. Amazing results.

The Floormec Commander is engineered to be simple to use and service. It's construction and features provide a heavy-duty, high performing cleaning machine, whilst being adaptive and versatile to your requirements.

Automatic brush pressure and high power motors mean you always get amazing results, no matter what floor surface you're cleaning.
